## WIRE NAIL / COMMON NAIL / IRON NAIL / WOOD NAIL

13-2 INCH

We are manufacturer of **2.0 Inch (50.8 mm) MS Wire Nail** for use in Building Construction / Wood Work / Cabinet Work / Furniture / Packaging etc for fastening purposes with modern machinery and these Steel nails (NL) can be customised on the basis of dimensions and thickness. We are manufacturing wire nails in Heavy (6-Gauge / Thickness) to Fine (18-Gauge / Thickness) Gauges. Lower Gauge number indicates thicker shank and a larger head to provide a larger surface area for fastening. Larger heads (> 3mm) are used for stronger holding power.
